

Arts: 3.95 GPA

- Bachelor's with Two Majors: Magna Cum
- Assisted three instructors as both a TA and a GA, including courses in Literature and Japanese
- Worked as a tutor for twenty hours a week in the Writing

# Dorothy M. Knosby-Portfolio

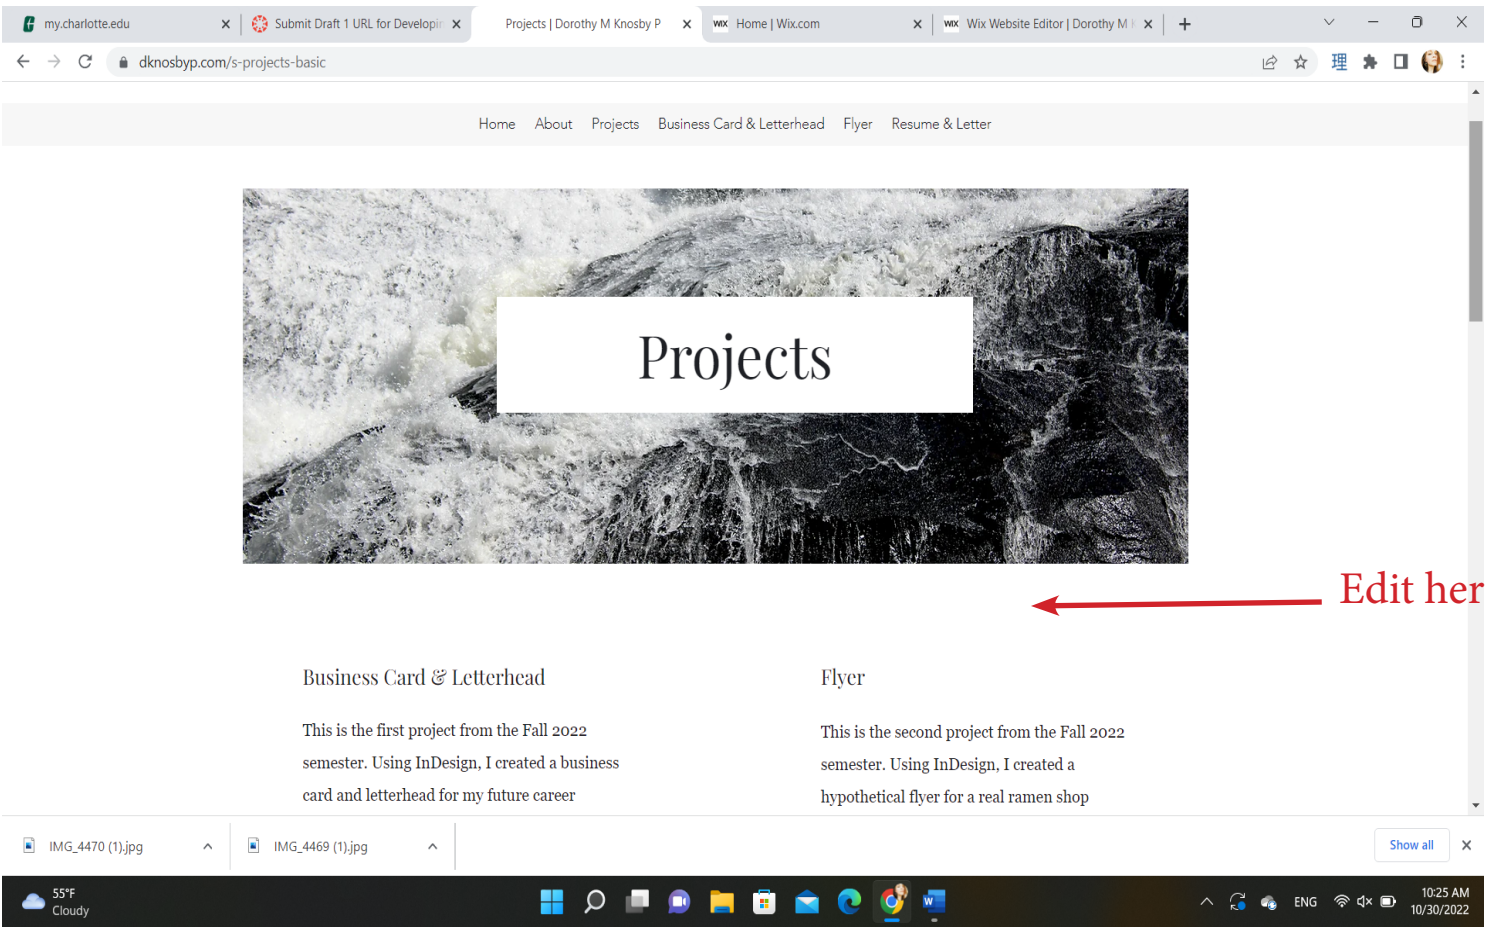

This portfolio is created for the ENGL 5183-090 course, which is a required course in my Technical/ Professional Writing Master's Program. The purpose of this portfolio is to showcase the work I have created throughout the semester, as well as my proficiency using the Adobe InDesign software. The photography throughout the site is also a product of mine. Enjoy.

Home About Projects Business Card & Letterhead Flyer Resume & Letter

## Projects

Business Card & Letterhead

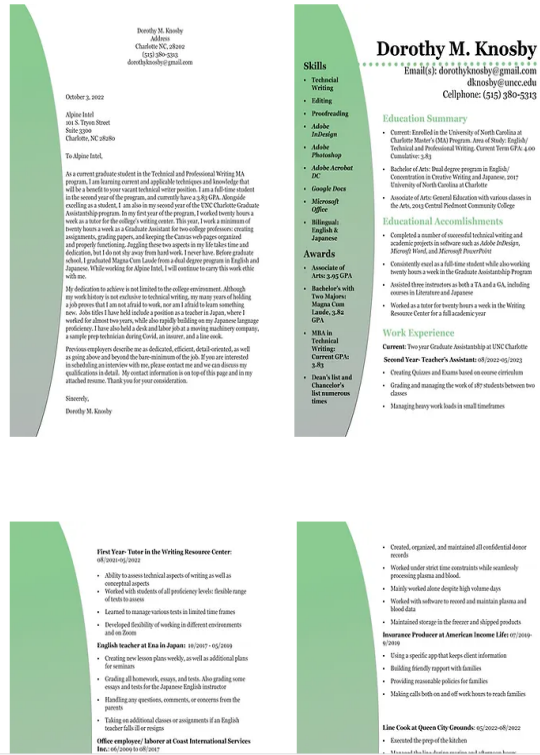

This is the first project from the Fall 2022 semester. Using InDesign, I created a business card and letterhead for my future career

Flyer

This is the second project from the Fall 2022 semester. Using InDesign, I created a hypothetical flyer for a real ramen shop

# Resume & Letter

This project was fairly straight-forward. The design was created in order to maintain cohesion and repetition with my past business card and letterhead project. The most time-consuming aspect of this project was the bulk of text within the document. There was also a hypothetical letter created to adjoin the resume. The project and my prose ended up being a success.

For this project, I wanted to create a website that displays my proficiency in Contrast Repetition Alignment and Proximity. I decided to choose a portfolio as the subject of my website. For the class, it was the most efficient subject to select. When creating this portfolio, I decided to create it in a way that would allow me to use it in ways that reach beyond the classroom. For the goal of the assignment, the website has been a success.
